

Last group of pictures show old faded, damaged, or graffiti signs. My hopes are the city possibly has new sign they could give us and we could put them up. The picture of the woods show the town pool which is a short walk from the fields.

These are pictures taken from street view. Main goal here is to clean trash and cut bushes. In discussion with Fitchburg chamber of commerce about trying to get red mulch delivered to help spruce up the front stairs and possibly move cement planters to ready draw people in.

This group of pictures are of trees and brush that has become extremely over grown. Last year I cut the bottom of the hill just to get the trees to not hang into the field of play. The first picture shows the brush piles. I have years of experience cutting trees down from my previous job. I would like to clear the rest of the hill and areas surrounding the fields. I was told at one time the city assisted with this job as a resident complained because they liked to watch games from the top parking lot. I was wondering if there is any chance that we could get help from the town. If they had a wood chipper and a couple guys it would be a quick job as I plan on having all that cut down and stacked before we meet on the 23rd for the field clean up. If not the league president said in past years people would just drag the brush and trees up into the woods. My worry is that sounds pretty labor intensive. I would personally do it if need be.

These pictures show the front of the concession stand which needs work on rotten wood and to be painted.(I will provide wood to fix rotten wood and paint for projects needing paint)

The picture of inside of dugout shows exposed nails. Still not sure how we're going to address this problem. Last picture is of some type of broken box with wires that come out. Not sure what it goes to but could definitely use some attention.

This group of pictures show the entrance of the fields. My focus here would be to clear out the brush, pick up trash, and hopefully work towards some type of sign saying welcome to Gus Johnson/Herman Bourque home of Fitchburg youth baseball.
